

ABE/JAKE (using a Eastern European accent)

(Oliver, Danny, and Aaron are stunned when they discover that the two young male actors, Jake and Abe, who have been traveling with Danny and his acting troupe, are actually spies from Eastern Europe. To make matters worse, the homeless woman hanging out downstairs at the front door is the head of their spy ring. Here, Jake (or Abe) has finally got the crazy actress Larina where they want her and is about to show her hidden, illicit fruit porn videos to their boss, Madame Zolda.)
